Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133).
- Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

Receipt is acknowledged of an amendment, filed 7/1/03 as Paper No. 13, in which claim 25 was amended, claim 26 was cancelled and new claim 43 added to the specification. Claims 25, 27-43 are pending in the instant application, with claims 27-42 withdrawn from consideration as being directed to a nonelected invention.

Any rejection of record in the previous action not addressed herein is withdrawn. This action is FINAL.

Claim Rejections - 35 USC § 112

The claims are generally narrative and indefinite, failing to conform to current U.S. practice. They appear to be a literal translation into English from a foreign document and are replete with grammatical and idiomatic errors.

The following is a quotation of the first paragraph of 35 U.S.C. 112:

The specification shall contain a written description of the invention, and of the manner and process of making and using it, in such full, clear, concise, and exact terms as to enable any person skilled in the art to which it pertains, or with which it is most nearly connected, to make and use the same and shall set forth the best mode contemplated by the inventor of carrying out his invention.

Claim 43 is rejected under 35 U.S.C. 112, first paragraph, as failing to comply with the written description requirement. The claim(s) contains subject matter which was not described in the specification in such a way as to reasonably convey to one skilled in the relevant art that the inventor(s), at the time the application was filed, had possession of the claimed invention.

Claim 43 comprises a limitation that at least one amino acid residue at specific positions within SEQ ID NOS: 1 or 2 are substituted with another amino acid which may be the same or different for each position. The response filed 7/1/03 argues that the specification at pages 15-16

Art Unit: 1636

(i.e. the substitute specification filed 1/25/02, Paper No. 4) provides support for the new claim. The response also argues that the presence of a single sequence (e.g. SEQ ID NO: 7) encoding a polypeptide with specific alterations at the same residues as is specified in the claim, provides support for the new claim. These assertions are not accurate. The cited pages from the specification merely provide support for claiming alterations within the protein sequence *in general*. The fact that a sequence is present in the specification with particular alterations at the recited residues does not provide support for broadly claiming *any* change in the sequence at those residues. The specification merely provides support for those specific changes present in the altered sequence and not for the broadly claimed genus of such alterations. Therefore, the cited limitation is impermissible NEW MATTER.

Conclusion

Claims 27-42 are withdrawn. Claim 43 is rejected. Claim 25 is allowed.

Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event,

Art Unit: 1636

however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
